Waiver of coinsurance for prescribed diagnostic imaging tests - Customer guide

How does it work?

Step 1: Diagnosis

- Visit your doctor and obtain a referral letter for the necessary prescribed diagnostic imaging tests^.

Step 2: Appointment booking

- Book an appointment at one of our Designated Network Imaging Centres.
- Inform the Designated Network Imaging Centre that you are a life insured of Manulife First VHIS Flexi Plan when scheduling your appointment.

Step 3: Proceed to prescribed diagnostic imaging tests

- Present your identification document (such as HKID card or passport) along with proof of your Manulife First VHIS Flexi Plan coverage. This proof can include the documents such as the policy schedule of your policy or a digital display on Manulife customer website showing you as the life insured. Additionally, a referral letter is required at the Designated Network Imaging Centre for an eligibility check.
- Settle the payment directly with the Designated Network Imaging Centre upon completion of the test and please keep your invoices and receipts. Please check whether the receipt indicates the use of the preferential rate, i.e., without coinsurance for the prescribed diagnostic imaging tests at the Designated Network Imaging Centres.

Step 4: Claim submission and assessment

- Submit your claim with the invoices and receipts. You can refer to the individual insurance claims procedures.

^Prescribed diagnostic imaging tests include computed tomography ('CT' scan), magnetic resonance imaging ('MRI' scan), positron emission tomography ('PET' scan), PET-CT combined and PET-MRI combined.
